Fruit of the Loom Textiles S.A.R.L  
RP1, Pés de Salam Gaz Municipalité de Skhirat Oued Ikem Skhirat  
Morocco

Dear Rachida Elaouni:

Worldwide Responsible Accredited Production (WRAP), has granted your facility, **Fruit of the Loom Textiles S.A.R.L. — WRAP# 18708** a certification extension for four months from the date of the Desktop Assessment Audit conducted by your monitoring firm. This certification extension is valid from **February 11, 2021 to June 11, 2021**, contingent upon full compliance with WRAP's 12 Principles. No new certificate will be issued. Please note, this email and the letter attached serve as official recognition of the extension of your WRAP certification.

It is your facility's responsibility to have a full initial onsite audit conducted before the expiration of this certification period. Please note that your WRAP registration remains valid until July 11, 2021. If you begin the recertification process before that date you will not have to pay the registration fee again.

During these challenging times dealing with the COVID-19 pandemic, we at WRAP share with all the facilities in our certification program the common goal of protecting the health of the workers as the top priority. We strongly encourage facility management to take all necessary measures required by relevant local authorities to make sure they continue to put the health of everyone working in their facilities first. We wish everyone the best of health and urge you all to stay safe.

Authorized use of the attached WRAP logo is limited to the certification period above, provided your facility maintains full compliance with WRAP's 12 Principles at all times. Please note that use of this logo does not give you permission to provide any services on WRAP's behalf or in WRAP's name.

Sincerely,

Srishti Sharma  
Director, Compliance Administration
